1960 CANCER CRUSADE

"What happens to the money you give to the American Cancer Society Crusade?"

The 1960 Cancer Crusade, which began April 1, has not set a limit for the nation-wide drive which seeks funds "to save lives without limit."

"Sixty cents out of every dollar we raise will stay right here in Virginia, Mrs. D. R. Caldwell said. "And, I think that's the first thing our residents will want to know. They like the feeling of joining together and fighting cancer as part of a countrywide offensive. But they also want to know that enough of their money is used for local and regional cancer control programs."

Ramon Roland, of Gretna; Mr. and Mrs. Pat Davis, of Sherwill; Mr. and Mrs. Edd Simms, of Bedford.

Mrs. Dan Irby spent Monday P. M. with Mrs. Vernie Jones.

Mr. and Mrs. Milton Cyrus, of Concord, and Mr. and Mrs. Bernard St. John, of Old Well, visited Mr. and Mrs. Emery Mullin Sunday P. M.

The American Cancer Society chairman said that perhaps the greatest reward for personal giving to the Cancer Crusade, is the fact that something immediate can be done to control the needless depredations of this enemy disease.

"We all want to know that research is trying to solve the mystery of cancer for all the generations to come, but we want just to know that American Cancer Society funds are being wasted lives right here in our community and in our state.

ECONOMY PROVED IN MOBILGAS RUN!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

CORVAIR BY CHEVROLET DRIVE IT! GET OUR DEAL!!!!

Things Corvair gives you that America's other compact cars can't:

Practically flat floor . . . real foot room for the man in the middle. **Fold-down rear seat** gives 17.6 cu. ft. of extra storage space. **Four-wheel independent suspension** for a smoother, flatter ride. **Rear-engine traction** . . . that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobilgas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.
